AI Legal Advisor

Your First Step Before a Lawyer

About our AI Legal Advisor

AI Legal Advisor is an NLP-based chatbot and voice assistant that provides general legal information. It can analyze uploaded PDFs, highlight key topics, and answer follow-up questions while automatically redacting sensitive details. Built using Groq LLM, MongoDB, ElevenLabs and Streamlit, it demonstrates how modern NLP can make law more accessible and understandable.

Legal Clarity for Everyone

Whether you're a student, tenant, employee, or small business owner, AI Legal Advisor helps you understand legal terms, common procedures, and document clauses so you can have more informed conversations with a qualified attorney.

Legal clarity shouldn't be a **privilege**. Our AI helps you ask **better questions** before you meet a lawyer.

⚠️ **Disclaimer**
This tool provides general legal information only and does not replace a licensed attorney
